

UNESCO-Bill Gates-American Education

In Paris on November 17, 2004 Bill Gates signed a “Cooperation Agreement” with UNESCO (United Nations Educational, Scientific and Cultural Organization) On signing every page of this agreement Bill Gates/Microsoft agrees to support the objectives of the UNESCO Constitution.

UNESCO’s history clearly reflects its intentions to destroy sovereignty and provide a universal education to help in the destruction of sovereignty by influencing our youth during their most vulnerable years and using the educational system to create global citizens.

Washington Times, January 18, 2004 “Learning Globally”

The Bush administration has begun issuing grants to spread a United Nations-sponsored school program that aims to become a “universal curriculum” for teaching global citizenship.....(IB)

George Walker, IB’s director-general in Geneva, said in June “the program remains committed to changing children’s values so they think globally, rather than in parochial national terms from their own country’s viewpoint.....”

The IB curriculum, UNESCO said, would promote human rights and social justice; the need for “sustainable development” (A21); and address population, health, environmental and immigration concerns.

In one of its first efforts in 1949, the UNESCO textbook titled “Toward World Understanding,” used to teach teachers what to teach, said:

“As long as the child breathes the poisoned air of nationalism, education in the world-mindedness can produce only rather precarious results. As we have pointed out, it is frequently **the family that infects the child with extreme nationalism.**”

A critical review of “**We The People; the Citizen and the Constitution,**” a civics textbook written by the CCE (Center for Civics Education), reveals that the teaching of historical facts is replaced with teaching attitudes and values about multi-mindedness. A review of science, and even math texts, reveals that sustainable development, environmental protection and social justice dominate the material children are taught.

TN resident the late Henry Lamb said, “No longer are American children learning about the structure of a federal republic compared to a parliamentary democracy. No longer are children learning the difference between capitalism and socialism.....” “Instead, they are being taught that with less than 5% of the world’s population, the US uses 25% of the world’s resources and produces 25% of the world’s pollution. They are being taught that the US is the No. 1 terrorist nation. They are being taught that the rest of the world is mired in poverty because of the greedy capitalists in the United States.

The prime mover for UNESCO back in 1945 was Julian Huxley. Huxley served as its first Director. Huxley also served as the VP of Eugenics Society from 1937-1944. In 1947 Huxley wrote: “Thus even though it is quite true that any radical eugenic policy will be for many years politically and psychologically impossible, it will be important for UNESCO to see that the eugenic problem is examined with the greatest of care, and that the public mind is informed of the issues at stake so that much that now is unthinkable may at least become thinkable.” (NOTE: Texas CSCOPE program teaches children how to commit suicide.)
